### Prime Group

#### Rohan Mehta of Prime Group gets the Young Entrepreneur of the Year Award

At a glittering event held in New Delhi on 22<sup>nd</sup> November 2012, Rohan Mehta, Managing Director, Prime Electric Ltd., (PEL), was conferred with the prestigious "Young Entrepreneur of the Year" award. The chief guests of the event were Shri Kodikunnil Suresh, Hon'ble Minister of State for Labour and Employment, Government of India and Shri Haroon Yusuf, Hon'ble Minister Power, Food and Civil Supplies Development, N C T of Delhi. PEL is a state-of-the art world class extra high voltage power transformer manufacturing facility. The products manufactured by PEL include generator transformers, autotransformers, power plant auxiliary and standby transformers, transformers for substations in the transmission networks and for the industrial enterprises, transformers for DC transmission lines and high-capacity converter substations and special application transformers.

### REC

#### REC awarded the 'IPE - CSR Corporate Governance Award'

REC received 'IPE - CSR Corporate Governance Award' in recognition of its best practices in CSR and the contribution made by the organization, which has brought about a positive change to the people and the community. Shri C P Bhatia, Zonal Manager, REC Western Zone, Mumbai received the award on behalf of REC from Professor MahendraDev, Director, Indira Gandhi Institute of Development Research, Delhi, in presence of Professor R K Mishra, Director, Institute of Public Enterprise (IPE), Hyderabad. The IPE - CSR awards are endorsed by World CSR Congress, CMO Asia and Asian Confederation of Business.

### ReGen Powertech

#### ReGen Powertech bags ₹ 1,800 crore worth of new projects

ReGen Powertech has bagged ₹ 1800 crore worth of new projects to be installed with third generation new turbine.

They include Tamil Nadu based Mytrah Energy India's 67 WEC-100.5MW project, NSL Windfarm's (Maharashtra) 50WEC-75 MW project, Hetero Windpower's (Andhra Pradesh) project for 36WEC-54MW and Renew Windpower's (Maharashtra) 33 WEC-49.5MW project, the company said.

Meanwhile, the Chennai-based ReGen announced the launch of 1.5MW wind turbine, suitable for low and medium wind speed sites, during the ongoing Wind Power India conference here, the company said in a statement. The new third generation turbine was developed in cooperation with technology partner - Vensys Energy AG, Germany.

### Vikram Solar

#### Vikram Solar to install solar power facility at Cochin International Airport

Vikram Solar, has announced that it would be installing a 100 Kwp solar power facility at the Cochin International Airport at Nedumbassery. Vikram Solar will design, install and commission this 100 Kw capacity Solar PV Power System at the airport. The solar power facility will consist of mounted solar panels which will generate DC electric power.

The electric power generated by the solar panels will not be fed directly into the utility grid. The proposed energy production will be at an estimated 148 MWh per year with a capacity of 100 kWp. The energy capacity of each PV module will reach upto 240 - 250 Wp.

This is an excellent opportunity and a path breaking vision that has been brought to light by the Cochin Airport Authority in encouraging the use of "Green" energy for such critical service utilities and will definitely open the doors with all other Airports and Utility services towards the use of sustainable Clean and Green Power and help support the "reenergizing" of the environment.
